

PERSONAL PROPERTY INVENTORY

In case of loss or damage to your personal property, YOU, the insured, would be required to make an inventory of the property you have lost. Should your loss be extensive, making a list of your possessions is difficult to do from memory, so **DO IT NOW** – Complete your inventory. The values you record should be the estimated current replacement cost. Review and update from time to time, especially whenever you make significant changes to the contents in your residence.

If the total amount of your inventory form comes to more than the amount of your contents insurance coverage, please contact your broker to increase your coverage.

Special Limits

Certain property has dollar limitations. Check your policy and if values exceed these limits, you can arrange specific insurance as required. These items include, but are not limited to: jewelry, watches, furs, stamps, coins, comic books, and other collectibles.

Important

Take photographs or a video of every room noting any unusual pieces or antiques. Keep this inventory in a safe place, away from your home (safety deposit box, etc.).
